Sausages of all kinds a specialty. Virginia Street, Reno, Nev. Jan1w1

Unvaluable Article When Properly Understood.

Few people appreciate its value for household use, thinking it only intended for soap making, but there are several uses to which it can be put, where it is the best article for the purpose. Some brands are much better than others, the one I use being in powdered form and perfumed enough to make it pleasant. Directions are always to be found on each can.

As a rule, soap making does not pay, except when one has grease that can be used in no other way. When this is the case, a fine soap can be made with little trouble. Use five and one-half pounds of clear melted grease and one can of lye, dissolved in five pints of water. Pour the lye into the grease and stir a few minutes, with no boiling or further work but to pour the mixture into a suitable vessel and set away until cold. It is then ready to be cut into squares of a convenient size with a warm knife.

If one wants a soft soap, take four pounds of the hard soap, cut into small pieces, and put into a kettle with one gallon of water and one tablespoonful of lye. Boil until it becomes thoroughly mixed, and you have an excellent soft soap.

When the sink pipe becomes clogged with grease or slime, put in a few spoonfuls of the lye and pour several quarts of hot water down, it cleans the pipe out like a new one. If this is done occasionally, there will never be trouble about the pipe filling up or freezing, for it keeps the passage clear and free from any refuse. The closet should have an occasional bath of lye water to keep it clean and disinfected.

Many use a little lye in the water when washing greasy dishes, as it cleans them like magic. One must be careful not to use too much, as it has a tendency to roughen the hands when strong, a teaspoonful to a gallon of hot water is a safe rule. A teaspoonful of the powder is sufficient to soften four or five gallons of hot water. A little lye in the water used to wash out the ice box is better than all the soap one can use.

Our grandmothers knew the value of lye, and always had it, even when it was necessary to make it themselves by leaching ashes. In the early spring a leach was made from a barrel filled with wood ashes. It was propped up and tipped to one side, so that the water would all run out at one place where a kettle was placed to catch it. Hot water was poured in the barrel and allowed to run slowly through the ashes. Their lye was in liquid form, and was tested for soap making by boiling it until, when a feather was held in it, the lye could cut up all but the rib. The lye is now much easier to use, and is more convenient to keep on hand.—Housekeeper

THE SUSPENDER SIGN.

One Way of Telling That a Man Is Getting Old.

There are many signs indicating that old age is coming on a man," remarked an aged gentleman to a Washington Star reporter, "but one of the surest is when he finds that his suspenders have a way of slipping off the shoulders. At first he thinks there is something wrong with the suspenders, and he tries to remedy it by tightening them up. For awhile this cures the trouble, but in a little while there is more slipping and he gets a new pair of suspenders. Even they slip off and make him feel uncomfortable. After awhile he discovers the trouble is not with the suspenders but with himself. As years roll on a man he gets more and more round shouldered, and unless he has his suspenders braced up by connecting them with a band behind the shoulders he cannot keep them up. I remember, some years ago, hearing two very prominent men speaking of the fact that they were getting old. One of them was at the time vice president of the United States and the other was a leading senator. 'What makes you think you are growing old?' one of them asked of the other. 'I found it out,' was the reply, 'as soon as I discovered that my suspenders would not stay up.' 'That has been my experience also,' came from the questioner. Neither of the gentlemen referred to had yet reached his seventieth year, but they had both discovered they were growing old by the same incident in their lives. I have never known it to fail. After a man reaches sixty his shoulders grow round steadily, and by the time he is seventy-five his shoulders have lost all their original size and formation."

THE TRIUMPH OF LOVE! Happy and Fruitful Marriage.

Every MAN who would know the GRAND TRUTHS, the Plain Facts, the Old Secrets and the New Discoveries of Medical Sciences applied to Married Life, who would alone for past follies and avoid future pitfalls, should write for our wonderful little book, called "Complete Manhood and How to Attain It." In any earnest man we will mail one copy Entirely Free, in plain sealed cover.

FRESH OYSTERS IN EVERY STYLE AT ALL TIMES.

Polite and attentive Waiters. Public patronage solicited.

A woman's attractiveness in the eyes of man depends largely on her physical appearance. Nature, in order to preserve the race, guides mankind by the instinctive preference for a mate who is physically sound and wholesome.

If intellect alone were chiefly sought, the offspring might be a generation of Solomons for wisdom, but they would perish in infancy for want of physical stamina. A weak or unhealthy woman is unfitted to fulfil her part in perpetuating the race, she is unequal to the demands of motherhood and wifehood, she is robbed of her natural womanly attractiveness.

Many a woman is cheated of life's choicest gifts by a dyspeptic, bile-poisoned condition of the system, which shows itself in a pimply skin, sallow complexion, tainted breath, or thin, ungraceful form. The most perfect remedy for all the mortifying symptoms of mal-nutrition and impure blood is Dr. Pierce's Golden Medical Discovery. Through its remarkable effect upon the liver and digestive organs it sweeps all impurities out of the circulation and creates a fresh supply of new, rich, life giving blood.

It gives clearness and bloom to the complexion, sweetens the breath, rounds out the face and form, and invigorates the entire constitution with vital energy. It restores the invincible beauty of wholesomeness and womanly capacity.

"I was a complete wreck, appetite gone, nervous system impaired, could not sleep, and was so weak that I could not stand on my feet ten minutes," writes Miss Ella Bartley of No. 213 1/2 South Grant Avenue Columbus, Ohio. "I only weighed 95 pounds when I commenced taking Dr. Pierce's Golden Medical Discovery. After I had taken a half bottle I began to improve, I could sleep soundly the whole night, and would awaken with an appetite for breakfast, which was a rare thing as I never had for two years back eaten a hearty breakfast. I now have an excellent appetite and my friends say they never saw me looking better or in better spirits since they knew me. I tell them it is all due to Dr. Pierce's 'Discovery'."

In all cases of obstinate constipation, the "Discovery" should be supplemented with Dr. Pierce's Pleasant Pellets.

Off for "Koondyke."

The following goods must be sold at reduced prices in order to make room for new goods:

Per quart bottle C Whiskey \$ 60
Quart bottle Kentucky Club Whiskey 75
Quart bottle Kentucky Miller Whiskey 90

PRESIDENT ANDREWS TO RESIGN.

Dr. Andrews, President of Brown University at Providence, Rhode Island, announces his intention to sever his connection with that institution. His decision was arrived at after a conference with the Advisory and Executive committee of the corporation. He has been chosen President of the Cosmopolitan University, a position which will take up too much of his time to permit of his remaining at the head of Brown University. Though urged by the faculty of Brown to remain he conceived it to be his duty to resign as he had promised to take charge of the Cosmopolitan when he had reason to believe that his services were no longer required at Brown.

President Andrews, it will be remembered, is an ardent advocate of bimetalism. The directors of Brown University are not. He thinks the United States are fully capable of managing their own financial affairs without the intervention of foreign money lenders, who are profiting by the demonetization of silver; they believe in making the United States a financial dependency of Lombard Street, London, pawnbrokers, who have gold to loan on Government bonds. He promulgated the doctrines and opinions which reason taught him would benefit the country; they believed that the teaching of such doctrine would deter millionaires from endowing the University and they resolved to muzzle Dr. Andrews or force him to leave the University. He believed in free speech and the right to publicly express his opinion on a question that concerned the country and he would not submit to the gag. The liberal press of the country, that is the papers that are not subsidized by Mr. Hanna, protested against the action of the directors and in deference to public sentiment President Andrews was invited to remain at the head of the faculty.

President Andrews will now become President of the Cosmopolitan University established by John Brisbane Walker of the Cosmopolitan Magazine, and will devote his time and talent to that institution and let the gold bugs run Brown University in the interest of the millionaires.

A TEST OF PROSPERITY.

The prices of commodities for several years past have been below the average. Beef was low, wool was low, and almost every other product was low under the McKinley Act, as they were under the more recent Wilson Act. Last year there was a decided advance in the price of beef, which at one time was so high in Eastern cities that the poorer classes could not afford to buy it and the price was reduced when the demand ceased. The prices of beef and wool, and of wheat, unless they are staple, do not indicate general prosperity. When the country is prosperous there is work for all at fair wages. Does such a condition exist at present in this State or on this Coast, notwithstanding the rush to Klondike caused a scarcity in the labor market? If it does not then prosperity is not general, though a few persons in favored industries may count their profits by tens of thousands or even millions. Who in Nevada or in California is receiving higher wages than were paid a year ago? Where is there a broader field for labor to-day than in 1896? Do the assessment rolls of the several counties, which are now being made up, show any appreciable increase in the value of property? If they do then the favored few are not endeavoring to evade the Assessor and if they employ more men and pay better wages than heretofore, it indicates that they are disposed to share their prosperity with others, and let the wave extend to all.

CAUSES OF DISCONTENT.

Professor Ross of Stanford University has been lecturing on the causes of industrial discontent. He assigned among the prominent causes the disappearance of free land, the dependence of the laboring man upon his employer for the chance to earn a living, and the breaking down of competition in many lines of industry, in consequence of which a favored few are enabled to dispose of their products at monopoly prices, though getting other people's products at competitive prices. Professor Ross occupies the Chair of Sociology at Stanford. He studies questions relating to political economy from a scientific standpoint, not for the purposes of advancing the interest of party. He finds that there is discontent among the masses and that one of the causes of this discontent is that a favored few can dispose of their products at monopoly prices, while they can purchase the products of those who are not favored at competitive prices. A few men get rich, but the majority get poor, and, as is quite natural under such conditions, very much dissatisfaction prevails.

The Carson News pays Warden Henderson a handsome compliment regarding his excellent management of the State Prison. The Warden can well feel proud of the notice, coming as it does from a paper which is opposed to him politically. The News is also deserving of credit for its frank and broad admission of the able and honest services of an officer elected by a party with which it has no connection.

TELEGRAPHIC NOTES.

Corbett has expressed a willingness to meet Fitzsimmons before a New Orleans club for \$20,000. Fitzsimmons has not replied.

A report reached Hazleton, Pa., yesterday that the officers had fired on a body of strikers, many of whom are reported killed.

The coal miners are still in national convention at Columbus. The hitch at the convention is the rate per ton for mining coal as it cannot be agreed upon.

Twelve suspicious cases of yellow fever were discovered at New Orleans, two of which are very sick patients, but the Board of Health have failed to pronounce them yellow fever cases.

A wholesale poisoning of woodchoppers at Kohler's ranch near Nevada City took place Wednesday. It is believed the food was poisoned. Two have died and four are dangerously sick.

It is reported that the Cuban Insurgents have captured the town of Victoria de Las Tunas, which is considered an important victory. The Spanish Government is greatly worried over the report.

A train wreck at Newcastle, Col., occurred yesterday morning. Forty people are reported killed. The trains collided on a curve and the cars took fire. Many of the passengers were burned to death.

U. S. Senator Bacon of Georgia, who was invited to visit Hawaii by Minister Thurston and investigate the conditions for his own information has declined, notwithstanding his entire expenses were to be paid.

Late dispatches from Dawson City tell of a deplorable state of affairs. Winter has set in, food and provisions of all kinds are scarce, two stores having closed owing to their stock of goods being exhausted. Men are desperate and crime is frequent, an unruly element has invaded Dawson City and the people are fearful of the consequences. Indignation meetings are being held and already the conditions are terrifying. There is much suffering and sickness. Open threats are made against organizers and leaders of parties, and the men who claim to have been fooled have grown desperate.

Supreme Court.

In the Supreme Court this morning Attorney W. E. F. Deal, on behalf of the V. & T. R. R., moved for a rehearing in the Washoe county tax case and the matter will be taken up the 1st of October.

Arguments were made in the court martial matter and a decision will probably be given shortly. The court martial objected to the presence of Attorney Huffaker before that body as counsel for the defendant and the matter was taken to the Supreme Court for settlement.—News.

Church Notices.

Congregational Church—Services both morning and evening at this church to-morrow. At 11 A. M. the subject of sermon will be "According to Your Faith Be It Unto You" and in the evening, "Following Christ."

For Over Fifty Years.

Mrs. Winslow's Soothing Syrup has been used by millions of mothers for their children when teething. It is distributed at night and broken of your rest by a sick child suffering and crying with pain of cutting teeth send at once and get a bottle of Mrs. Winslow's Soothing Syrup for children teething. It will relieve the poor little sufferer immediately. Depend upon it mothers, there is no mistake about it. It cures Diarrhea, regulates the Stomach and Bowels, cures Wind Colic, softens the gums, reduces inflammation and gives Tone and Energy to the whole system. Mrs. Winslow's Soothing Syrup for children teething is pleasant to the taste and is the prescription of one of the oldest and best female physicians and nurses in the United States. Price 25 cents a bottle. Sold by all druggists throughout the world. Be sure and ask for "Mrs. Winslow's Soothing Syrup."

Another frightful railroad wreck at Newcastle, Colorado, occurred early yesterday morning. Forty people are reported killed. The year 1897 will break the record for railroad wrecks, if the next four months hold up with the past eight.

J. F. McDonnell, Secretary of the Miners' Union at Virginia, was a passenger for Randsburg last evening where he will initiate the Union there into the Western Miners' Federation.

A HOTEL IN TWO TOWNS.

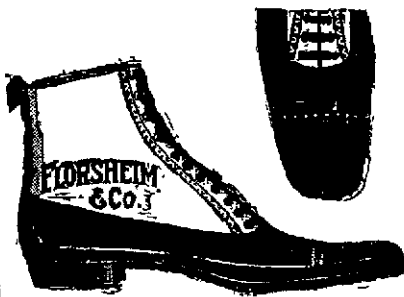

If One Town Goes Dry the Bar Can Be Moved Into the Other Town.

In selecting the site for the Grand hotel in the Catskills, on the top of Pine Hill mountain, the owners evidently had in mind the vagaries of the excise vote. It is not generally known that the Grand hotel stands on the boundary line of Ulster and Delaware counties, the boundary line passing almost through the middle of the hotel building. The hotel therefore is in the township of Shandaken, Ulster county, and in the township of Middletown, Delaware county. Should Shandaken go dry, the hotel bar could be moved to Middletown, and vice versa. Advantage has been taken of this fact by the hotel owners to keep down the assessment, says the New York Sun.

The assessors of Shandaken placed a valuation on the property of \$50,000, but agreed to assess it for only \$25,000 if the hotel would remain in that township. This year they have raised the hotel assessment to \$30,000, and the owners have notified them that they intend to remove the hotel to Delaware county, where the assessment will be made much lower by the town of Middletown. The assessors of Shandaken township are going to try to have a bill passed by the next legislature creating this hotel property into a special district, and giving to the stockholders the privilege of voting as to where they shall be assessed or whether they shall be assessed at all.

Don't fail to take in the relay race to-morrow afternoon. The admission will be placed at 25 cents.

The relay race will be interesting. A large crowd will be present and the music will be an attraction.

Thyres' tamale feature is taking in great shape. The sales of Upson's tamales have been startling.

Universal cook and heating stoves, and cheaper grades sold at cost to reduce stock at Lange & Schmitt's.

Henry Ritter will have tamales to-night. Served on order or furnished in quantities to suit at 15 cents each.

The Monarch and Louvre proprietors will furnish a substantial lunch at any hour and tamales every evening.

Twenty-five carloads of cattle were shipped East yesterday morning. The cattle were shipped by George Greeno of Long Valley.

Black Bart, who was once a famous stage robber in California, has turned up in Kansas where he was sentenced to five years for robbery.

The Valley Railroad is completed to Visalia, Cal., and a grand celebration was held there Thursday in honor of its completion to that point.

The lunches at the Granite Saloon cannot be excelled and the beer is served ice cold. A choice stock of wines by the bottle or gallon.

L. D. Folsom has received a carload of fine dry wood which he is selling in quantities to suit and at prices so low that all can keep warm this winter.

Read the 50-cent notice of the entertainment of "a trip around the world in fifty minutes" at the Congregational Church on next Thursday, the 10th inst.

The late frost has done considerable damage at various points in the valley. The cold currents seemed to run in streaks and nipped everything more or less in their course.

The Granite Saloon is a quiet and pleasant place of resort. Cool beer is a specialty. Choice wines are sold by the gallon or in quantities desired also liquors of all kinds.

A large crowd of visitors will come from Virginia and Carson to-morrow to witness the relay race. The special train will arrive from Carson at an early hour in the forenoon.

O. Novacovich will handle the Kane Brothers' of Coloma, Cal., celebrated fresh fruits. Ladies who contemplate putting up fruit for the winter will do well to call and order their supply.

Call at Muller & Stumpf's Pabst agency for fine California and imported wines for family and medicinal purposes. Sherry, port, muscatel, angelica and all dry wines by the gallon. Open every day until 8 o'clock.

Do not fail to visit the millinery parlors of Miss E. G. Gibbs, during the opening days viz the 15, 16 and following days. An elegant and complete line of goods including patterns, hats and bonnets. Numerous novelties and souvenirs.

George W. Maynard, a metallurgical engineer of New York, is visiting on the Comstock. Mr. Maynard represents John W. Mackay's interest in the Silver Peak mines and will leave for Silver Peak in a few days to commence operations.

S. Emrich has just finished getting in all of his fall stock in dress goods, blankets, underwear, etc. Having succeeded in securing his stock before the Dingley bill went into effect, he saved the new duties on many of his goods and consequently gives his customers the benefit, by low prices.

WORKS FOR NEVADA.

Dr. Stubbs Presents the Petition for Lower Rates on Nevada Products and They Are Granted.

Some time ago a petition was signed by numerous citizens asking the railroad company to grant a further concession in rates on Nevada products shipped from this or other points to the Sacramento or San Francisco markets.

It was finally settled to place the petition in Dr. Stubbs' hands for presentation to the company. How well the doctor succeeded in his mission will be shown in the following communication and it proves beyond question that the matter was put into hands that could bring about very satisfactory results and the kindness should be appreciated accordingly:

SAN FRANCISCO, September 7, 1897.

Dr. J. E. Stubbs, President Nevada State University, Reno, Nevada—DEAR SIR: Referring to the petition by the citizens of Reno, conveyed to this company through you, asking for a slight modification in the leading agricultural products between Reno and San Francisco for the purpose of stimulating production and opening to the farmers of that section the San Francisco market, beg to say that this is a subject that is constantly before us, as indicated recently, for example, by the radical reduction made in local stock rates from Reno to Sacramento and San Francisco; namely, cattle, for car not exceeding 90 feet in length, rate from Reno to San Francisco has been \$70 per car; reduced, effective 10th ult., to \$65; to Sacramento, has been \$68, reduced to \$55. Sheep to San Francisco, rate has been \$45, reduced to \$35; to Sacramento, has been \$45, reduced to \$30.

This states the reduction in a general way. The agent at Reno has the reductions in detail for the information of shippers.

The question of hay rates has recently been one of investigation pursuant to a call made at this office by one of Reno's citizens, Mr. S. O. Wells, whose name is noted on the petition you present. At that time was unable to offer him the relief desired, but after looking into the matter carefully it has been deemed wise to undertake the experiment of reducing the Reno hay rate from \$3 25 per ton to \$2 80 per ton. This reduction will take effect on the 15th inst. The charge will be on actual weight, but not less than 8 tons for a 28-foot car, or 9 1/2 tons for a 34-foot car.

Other products of your section have been under review from time to time and are borne in mind as occasion may warrant. The rates on all appear to this office to be on a most favorable basis and indeed are the subject for some criticism at the hands of producers in other sections nearer San Francisco, with transportation over level country, whereas from Reno the greater part of the trip is over the Sierra Nevada mountains, involving greatly increased expense over the transportation for same distance in other directions. It is most agreeable to this company, however, to be able to make concessions from time to time in the development of Nevada, when such become practicable and can consistently be made.

It is hoped that the rates as now adjusted from Reno are satisfactory.

Yours truly,
W. SPOURLE.

Serious Accident

A special dispatch to the Independent from Lovelock says that C. P. Turner, Superintendent of the nickel mines forty-five miles from that place, met with a serious mishap by falling down one of the mine shafts a distance of 75 feet.

The messenger who brought the news to Lovelock left the Superintendent in an unconscious and perhaps dying condition. Medical aid was at once sent, but grave doubts are entertained about it reaching the mines in time to be of any benefit.

Superintendent Turner was the representative in Humboldt county of the Nevada Nickel Syndicate, which has some promising mines at Nickel and has a smelter on the ground. He was an able, competent man and very popular among the business men of the county. We trust that the next word received will not announce a fatal result.

Douglas County's Tax Roll.

The assessment roll of Douglas county for 1897 contains 337 names and foots up \$937,677. This is \$63,177 more than last year. The tax list shows that the taxable property in Smith Valley, or in the territory claimed by both Lyon and Douglas counties, amounts to \$104,275. The tax rate is \$2 75 on the \$100, and the total amount of taxes on all property assessed, real and personal amounts to \$25,786. Besides this the Board of Equalization will probably dig up a few mortgages which have not been assessed, and the Assessor has collected about \$500 in cash for poll taxes, and about \$300 more will be paid to the County Treasurer on account of poll tax when the taxes on real estate are collected in November, making the total receipts for taxes \$26,886. This, of course, makes no allowance for any changes the Board of Equalization may make in the assessed value of taxable property, but it is not probable that the assessment roll will foot up less than it does now when the board gets through with it. Heretofore the amount of taxable property in the county has generally been increased slightly by the Board of Equalization.—Courier.

Regent W. E. F. Deal arrived on the V. & T. last evening and continued west.

Royal makes the food pure, wholesome and delicious.

LYON COUNTY VS. DELIA ROSS.

A Supreme Court Decision of Interest to the Public.

In the case of Lyon county, respondent, vs. Delia Ross, appellant, the Supreme Court has filed an opinion of general interest. The undisputed and material facts in the case are that certain property in Lyon county was sold for taxes and bid in for Lyon county at a delinquent tax sale in January, 1894. The property was not redeemed and the proper conveyance therefor was made to the Treasurer of Lyon county; that the assessed value of the property in 1893 was \$1,500; that in September, 1894, the Board of Commissioners of Lyon county by an order, which is of record, directed the Treasurer of said county to convey said property by deed to the appellant for the sum of the delinquent taxes and costs, amounting in the aggregate to \$42 72; that the sale was not made at public auction, nor any notice given that a sale of the property would be made.

Upon these facts the District Court held that the deed of the Treasurer to the appellant was executed without authority of law and was, therefore, void. Was the sale and conveyance under the facts stated authorized by law? is, the Court says, the only question to be determined.

The Court says the Act to Create a Board of County Commissioners and to define their duties and powers, provides that the board shall have power to sell at public auction at the Court House, after at least thirty days notice (in the same manner as required by law for the sale of like property under execution) and cause to be conveyed any property belonging to the county, appropriating the proceeds of such sale to the use of the same.

An act approved March 6, 1893, provides that when the county shall have come into possession of a deed to any property of an assessed value of less than \$100, the Board of County Commissioners may, by an order entered upon the records of the board, direct the Treasurer to sell such property, provided, that notice of such sale shall be posted in three public places in the county, including one at the Court House and one on the property to be sold, for a period of not less than twenty days prior to the day of sale. The Court holds that as the assessed value of the property in controversy is more than \$100 the Act of 1893 cannot be applied in the case.

The Court in discussing the provisions of Section 1,049 of the General Statutes says: "The powers of Commissioners and the mode of exercising them, being derived from the statute, must necessarily depend upon its true construction. The restrictive provisions of the statute were evidently inserted for the protection and benefit of the public and were intended to guard against favoritism, extravagance or corruption in the letting of contracts for any public work. When the Commissioners act under such authority they must strictly follow all the conditions under which the authority is given. The law is well settled that County Commissioners can only exercise such powers as are especially granted, or as may be necessarily incidental for the purpose of carrying such powers into effect; and when the law prescribes the mode which they must pursue, in the exercise of these powers, it excludes all modes of procedure."

Sadler vs. The Board of Commissioners of Eureka Co. 15 Nev. 42.

The Court, therefore, holds that the sale of property acquired by the county under existing laws, the assessed value whereof is \$100 or more, can be made only by the Board of County Commissioners at public auction and after previous notice. The judgment of the lower court is, therefore, affirmed.

The opinion is by Massey, J., Belknap, C. J., and Bonfield, J., concurring.

Bergstein Gets Funny.

A few days ago when Dr. Bergstein, Superintendent of the Asylum, was in Carson he asked some people in the Capitol building if they would not send him a lot of magazines and books for the inmates of the Asylum.

"Why not send 'em some of these political slates," said one.

"Looks as if most of 'em came from there," was the Dr.'s quiet response.

Appeal.

Stereoscopic Exhibition

There will be an exhibition of stereoscopic views, scenes from the civil war and other historical views, at the Sisters School. This (Saturday) afternoon, 3 o'clock matinee for school children. Admission 10 cents. Evening at 7:30 for adults admission 25 cents. Everybody invited.

WEATHER BULLETIN

(Copyright, 1897, by W. T. Foster.)

St. Joseph, Mo. Sept. 11.—My last bulletin gave forecasts of the storm wave to cross the continent from September 20th to 21th.

The next disturbance will reach the Pacific coast about September 24, cross west of Rockies country by the close of the 25th, the great central valleys the 26th to the 28th, the Eastern States the 29th.

The warm wave will cross the west of the Rockies country about Sept. 24th, great central valleys, the 26th, Eastern States 28th. The cool wave will cross the west of the Rockies country about the 27th, great central valleys 29th eastern States October 1st.

In the Northern States the week ending 18th will average cool. In the Southern States that week will average below normal with a great fall in temperature not far from the close of the week.

Cool weather for this month will end in the Northern States not far from the 20th and warm weather in the Southern States, for this month, will end not far from the 15th.

Heavy rains may be expected in Texas and in the Missouri valley during the week ending the 18th and dry weather in the Atlantic coast States.

An Extensive Business for Sale.

On account of various matters in which he is interested demanding so much of his attention, R. H. Cowles finds that he cannot devote the proper amount of time to his Grocery Business at Wadsworth and hereby announces he will sell the building at Wadsworth in which is located his General Merchandise Store, the lot on which it stands, a large fire-proof cellar, the stock of goods on hand, the good will, etc. The goods are all fresh, nothing shop worn. The business is a prosperous one and the only reason for selling is to enable Mr. Cowles to give all of his time to other industries in which he is engaged. Wadsworth is the best business town in Nevada to-day and this opening offers a splendid opportunity for some good man to locate in Wadsworth. Call on R. H. Cowles at his store. aug26mo1

The Viavi Work.

In no way can we do more good than in restoring the sick to health. This Viavi will do, if intelligently used.

Have you stomach trouble? Use our Tabloids.

Have you piles? Use our Sano.

Have you catarrh? Use our Catarrh Remedy.

Are you weak and all run down? Use Viavi.

Come and see me and I will fully explain the use of all of our remedies.

Mrs. B. E. HUNTER,
Fourth Street.

Wines! Wines! Wines!

A. T. Dormio & Co., opposite the depot, have just received a large consignment of wines which will be sold at a 25 per cent reduction. They are of Santa Clara and Santa Rosa vintage and are of the purest quality. Just the thing for medicinal and family use. Read the list: Zinfandel, Madeira, Angelica, Tokay, Port, Sherry, Catawba, Claret, Reisling and others, also imported Italian wines and grape brandy.

Church Social.

Come to the Congregational Church on Thursday evening, Sept. 10, 7:30 P. M., and take a trip "around the world in fifty minutes;" musical program; ice cream and cake for 25 cents.

[Gazette copy.]

If You Need

any canned goods, come to us. We are very particular about that part of our stock. We do not claim that we carry the largest stock of canned goods of anyone in the city, but we do claim that we carry the best and freshest. Isn't that the kind you want?
